

## ***Sustainable Economic Instruments for the Management of forest and marine Ecosystems***

*Projet International de Coopération Scientifique – CNRS*

Mid-Program Workshop

Madrid, 6 -7 June 2013

### **Thursday, June 6<sup>th</sup> 2013**

14h45: *Introduction*

15h-15h30: “Spatial green accounting for terrestrial ecosystems: from theory to practice”, Alejandro Caparrós (IPP).

15h30-16h: “Seeing the forest for its water”, Marc Leandri (GREThA)

16h-16h30: “A theoretical framework for green accounting in the land-use sector”, Itziar Ruiz de Gauna (IPP)

17h-17h30: *Coffee Break*

17h-17h30: “Critical natural capital, ecological resilience and sustainable management of wetlands: a french case study”, Sylvie Ferrari (GREThA)

17h30-18h: “Comparing contingent valuation and choice modeling using field and eye-tracking lab data”, José L. Oviedo (IPP)

### **Friday, June 7<sup>th</sup> 2013**

9h-9h30: “Private and public agroforestry accounts in a group of agroforestry farms in Andalusia”, Paola Ovando Pol (IPP)

9h30-10h: “Optimum Allocation of Wetlands: Conflict between Agriculture and Fishery”, Natacha Laskowski (GREThA)

10h-10h30: *Coffee Break*

10h30-11h: “Random catchability, TAC and discards”, Sébastien Rouillon (GREThA).

11h-11h30: “Bio-economic modelling of renewable resources and biodiversity: some case studies”, Jean-Christophe Péreau (GREThA)

11h30- 12h: “Climate Treaties and Breakthrough Technologies in a Dynamic Framework”, Raul López (Universidad Complutense Madrid)

12h: *Closing Discussion*
